**SUBDIVISION AND LAND DEVELOPMENT**

A filing fee, including the actual cost of engineering, professional consultant services, and legal services is required for applications, as specified in the Conewago Township Subdivision and Land Development Ordinance. Applications shall not be considered complete until the filing fee is paid.

The initial deposit for the filing fee shall be in the sum total of the following:

Sketch Plan	.....	\$ 250.00
Preliminary Plan	.....	\$ 2,500.00
Preliminary/Final	.....	\$ 3,500.00
Final Plan	.....	\$ 1,500.00
Annexation Plan	.....	\$ 1,000.00

For Subdivision and Land Development plans submitted in other municipalities that are reviewed by the Conewago Township Planning Commission and/or the Board of Supervisors, a fee will be charged for the plan submitted using the fee schedule stated above.

In the event that the initial deposit is reduced, to a balance insufficient in the opinion of the Township to cover the necessary remaining review costs, the applicant, on demand, shall deposit with the Township sufficient additional funds to correct the said deficiency.

In the event that the deposit is less than the actual engineering, professional consultant services, and legal costs, the applicant shall, upon demand of the Township, pay such additional costs.

After completion of the plan review process and inspection of improvements, if the actual engineering, professional consultant services, and legal costs are less than the deposit paid by the applicant, the difference shall be refunded to the applicant.

The resubmission of a previously rejected plan shall be deemed a new submission subject to a new filing fee, as provided hereunder.

**SUBDIVISION AND LAND DEVELOPMENT**

**MANDATORY DEDICATION**

Mandatory dedication (or fee-in-lieu thereof) of Recreation Land, (pursuant to

Chapter 135, Section 48.C, 0.125 acre per proposed residential unit or fee in lieu of \$1,500.00 per unit.

Pursuant to Chapter 135, Section 48.C.(2), as an alternative to a fee in lieu of land dedication to satisfy the requirements of Subsection C, an applicant may, with Township approval, construct recreational facility improvements to the Township's Community Park, such park being designated to serve the entire Township, provided that the value of the improvements, if constructed by the Township as estimated by the Township Engineer, equals the current fee in lieu of land dedication for the applicant's entire development. Construction of said recreational facility improvements under this subsection shall be completed by a completion date agreed to by the applicant and the Township.

#### SIGNAGE INSTALLATION

During Construction Phase of Development Project, Township will install all signage on roadways to be dedicated. Actual costs of materials, plus \$40.00 per hour for labor will be charged.

#### ADMINISTRATIVE FEE

Administrative fee for processing billing shall be invoiced at 1.10 times statement total at time of billing.

### **STORMWATER MANAGEMENT FEES**

Tier 1 – Exemptions – No Initial Fee

Tier 2 – Township Engineer Review Fee- \$ 125.00

Tier 3 – Township Engineer Review Fee - \$ 225.00

Tier 4 – Fee is included in the Land Development Plan Fee Schedule

Tier 5 – Township Engineer Review Fee - \$ 100.00

Additional Fee – If in the course of normal review, under any of the above listed tiers, there are unusual circumstances that will require a further level of review effort by the Township, more so than envisioned in the scope of this fee schedule, the Applicant shall be immediately notified of the situation and provided with the option to either withdraw the application (pending further effort to resolve such circumstances) or accept the continued processing of the application, agreeing to directly compensate the Township for any effort invoiced by the Township Engineer. An estimate of fee will be provided to the Applicant to assist in this situation.

#### **Stormwater Management Fee Schedule**

The following “tiers” have been established to regulate the fee that will be collected by the Township to offset engineering review of the various degrees of submitted Stormwater Management Plans (or exemptions thereof).

The following tiers are hereby established:

##### **Tier 1 (No Fee)**

Projects that are appropriately deemed “exempt” due to the project being less than 1,000 square feet of new impervious area. The review will be completed in-house by Zoning Officer. There will be no initial fee for applications submitted under this tier.

##### **Tier 2 (\$ 125.00)**

Projects greater than 1,000 square feet of new impervious coverage, but where it can be shown that the runoff meets the criteria of being “disconnected”. This means that runoff flows over a vegetated surface (instead of being connected to a pipe which conveys runoff to a storm sewer system). The other general “disconnection”

criteria that will be considered for these applications in this tier (as found in the Municipal Worksheets) is;

- The slope of the path is less than 5%
- The contributing drainage area for each discharge point is 500 square feet or less
- The flow path consists of good draining underlying soils (avoid clay and compacted soils and may require soil amendments to improve infiltration)
- The length of the flow path is approximately 10-15 feet and is also sufficient to avoid discharge to adjacent property or reconnection of runoff
- The flows must remain as “sheet flow” spread out as flat as possible (via. Spreader or splash block)

The initial review will be processed by the Zoning Officer, with a subsequent review (and report) conducted by the Township Engineer.

**Tier 3 (\$ 200.00)**

Projects greater than 1,000 square feet of new impervious coverage that cannot meet the “disconnection” option (as outlined per Tier 2). The initial review will be processed by the Zoning Officer, with a subsequent review (and report) conducted by the Township Engineer.

**Tier 4 (No Fee)**

Projects that are greater than 1,000 square feet of new impervious coverage, but are submitting a Land Development Plan (where stormwater runoff will be addressed). The fee for the review of the Stormwater Plan (associated with the Land Development Plan) is covered in the fee schedule for Land Development Plan Review.

**Tier 5 (\$ 100.00)**

Projects that only require a Municipal Concurrence Letter for the Post-Construction Stormwater Management Plan (PCSM) to be prepared and provided as part of an NPDES Permit Application. For example, if a project exceeds 1.0 acre of disturbed area, but does not propose “Land Development” regulated activities (e.g. water line replacement), this Tier is used to account for the required letter necessary per the NPDES Permit requirements.

**TAXES**

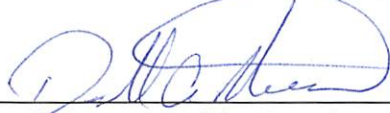

Per Capita Tax	\$ 5.00 per year
Local Service Tax	\$ 52.00 per year
Mechanical Device Tax	\$ 50.00 per device

**APPLICATION TO THE ZONING HEARING BOARD**

Residential Use (Variance or Special Exception)	\$ 500.00
Non-Residential Use (Variance or Special Exception)	\$ 1,000.00
Multiple Hearing	50% original fees
Court Ordered Remand Hearing	50% original fees
Legal Non-Profit Corporation	25% Non-Residential Fees
Appeal of Zoning Officer Action	\$ 500.00
